PRIVATE TELEGRAM.

London, Saturday 14th—All Argentine stocks in London market very strong.

(By Havas Agency)

Paris, March 15.—The celebrated poet, Theodore de Banville, died yesterday.

Lisbon, March 15.—The Chamber of Deputies has passed the Government Bill for the consolidation of the floating debt.

News has been received from Mozambique explaining that a vessel loaded with provisions for the English troops has been captured in the roads off Manica.

Berlin, March 17.—Herr Windthorst, the Chief of the German Catholic party, died yesterday at the age of 79.

Paris, March 16.—The French Government have resolved to detain the Chilian cruisers now being constructed in Toulon.

THE CHILIAN REVOLUTION.

Puente del Inca, 15th.

All the details of the sanguinary battle at Pozo Almonte have been received. The victory of the revolutionary forces was complete. On the evening of the 6th Col. Robles' forces, which had been joined by the divisions under Gana and Arrate near Pozo Almonte—1800 men—were attacked by 2500 revolutionists under Col. Canto and Col. Holley. The battle lasted four hours; the slaughter was terrible. Col. Robles was killed. Col. Gana fled and Colonel Arrate was wounded. Almost all the Balmacedista officers were killed, which leads to the supposition that their own men, revolutionists at heart, shot them down. The number of wounded on the side of the revolutionists was considerable. Balmaceda lost the flower of his army in this battle.

Another crushing blow for the Government is the defection of Garcia Valdeireso and 250 men, who held one of the forts near Valparaiso. This commander on Saturday morning spiked the guns of the fort and went on board the Maipo, a steamer just chartered and armed by the Government. Once on board they took possession of the vessel, placing the officers under arrest. There are 20 Gatling guns and a number of other pieces on board this steamer, besides two million cartridges. Furthermore, the captain of the vessel was in possession of the secret signals arranged with the steamer Imperial, which will, no doubt, now fall into the hands of the revolutionists. The last heard of the Imperial is that she was seen chased by the Esmeralda and Huascar which were firing on her at 1½ mile distance.

The crisis is terrible in Valparaiso, and the distress in the lower classes is dreadful. Exchange is at 15 pence.

The revolutionists have now good, well-armed, disciplined men. Balmaceda has lost all his prestige. It is said that he has issued 12 million dollars paper on his own authority.

The *Nacional* of Iquique, of the 8th, which has just been received, states that all the artillery, etc., of Robles' forces have fallen into the hands of the revolutionists.

The province of Tarapaca, with all its immense resources, is now in the hands of the revolutionists, who will immediately appoint their authorities, and, in fact, establish a regular Government. Their first step, it is said, will be to send diplomatic representatives to foreign Governments.

The fleet have seized the steamer Ylo, which was laden with provisions for the Balmacedistas in the north.

The British steamer Pizarro was stopped and searched, and several boxes of rifles confiscated by the fleet.

THE SUNDAY ELECTIONS.

Nobody was surprised that the elections on Sunday resulted in a "walk over" for the party which proclaims General Mitre as its head. It was merely a repetition of the elections of the 8th inst. The popularity of General Mitre in Buenos Ayres was never greater than at present, arising partly from his personal merits, partly from the lamentable errors of the statesmen who have held office in the last six years.

Never in the history of a nation has there been such a series of deplorable blunders as we have been the victims of since 1885. The suspension of specie payments, the various loans in London, the simultaneous construction of docks at Buenos Ayres and Ensenada, the crack-brained Boulevard, the Murrieta railways in all manner of odd places, and many matters that will one day provoke severe criticism; these naturally produced a state of things such as the oldest inhabitant had never experienced, causing a total suspension of business for seven days in our city.

No wonder that the elections resulted in the triumph of General Mitre's party, since everybody seems to think that a change of government would again place the country on a sound footing. We have yet to learn what are General Mitre's sentiments as to Curso Forzoso, Free Banks, free paper money, balance of trade, taxes on bank deposits, etc. As he is expected to-morrow we hope to learn at once his views on these points.

THE WAR IN CHILE.

Latest advices would seem to indicate that the Chilian struggle is coming to a crisis in which Pres. Balmaceda is likely to succumb. Public opinion in Buenos Ayres has been adverse to him from the outset, and as far as we can judge it has been the same in Europe. His quarrel with the Chambers is almost identical with that of Charles I. and the British Parliament, and he has made things worse by shooting prisoners in cold blood and confiscating the properties of all who were opposed to him.

Such a policy has had its natural consequences in deciding the revolutionary party to give no quarter; among the victims of such savage warfare we regret to find the valiant Col. Robles, the best commander on Pres. Balmaceda's side, who was cut to pieces when lying on the ground, disabled.

No atrocities committed by Balmaceda's troops can justify the massacre of wounded men by the victorious rebels, but the blame must in some measure fall upon the Chilian President for inaugurating this "war to the knife," the results of which must be an epoch of carnage. Let us hope that the struggle may be of short duration, and that Pres. Balmaceda may soon be a fugitive from a country which can only associate his name with opprobrium.

The battle of Pozo Almonte may be decisive, since the best troops of Pres. Balmaceda were cut to pieces in that fight. But it may be that he will succeed in arming thousands of the "rotos" on his side, and endeavour by brute force to annihilate the educated classes and establish a tyranny like that of Francia or Rosas on the ruins of the Chilian constitution.

THE QUESTION OF CANADA.

Canada is so far from Buenos Ayres that people take as little note of what occurs on the St. Lawrence as on the Bramapootra or the Irrawaddy. The recent elections have given a majority to Sir John McDonald, leader of the Conservative or British party, and thus put off for a time the chances of annexation to the United States. The majority, however, is small, the respective figures being 110 and 92, from which it appears that a change of 10 votes among Sir John McDonald's followers would give a majority to the Opposition.

Professor Goldwin Smith maintains that annexation to the U. States is inevitable, and if this be so we should say the sooner the better. The U. States will no longer consent to "free transit" of Canadian imports and exports, over their territory, and the geographical position of Canada is such that her commerce is practically suspended during the winter months. Under these circumstances Canadians will have to make up their minds whether they will follow Sir John McDonald's teaching or that of Goldwin Smith.

The old French "habitans" are fiercely opposed to union with the U. States, the Scotch and English are apparently ranged on the side of annexation, and the Irish are divided. Those of the latter who allow their hatred of the British Government to absorb every other feeling clamor for annexation; but there are many who see that the privileges accorded to Roman Catholics in Canada are inconsistent with the American Constitution as regards religious equality, and hence are opposed to any change.

ST. PATRICK'S DAY.

When Governor Saavedra, some twenty years ago, assisted at the dedication of the church at Las Heras he said it was most proper that it should bear the name of St. Patrick, as the progress of Buenos Ayres was mainly due to the Irish sheep-farmers. Consul Cowper in his report to the British Government, bore testimony to the same effect. We know that Irish farmers, as Major Craigie testifies, are by far the best class of colonists in Canada, and on repeated occasions Australian statesmen have voluntarily come forward to declare that "whatever faults may be ascribed to Irishmen in their own country there is no class of settlers superior to them in Australasia."

It is, therefore, no wonder that their career in Buenos Ayres has been one of uninterrupted prosperity to themselves and of incalculable benefit to the country. Fifty years have elapsed since the Browns, Sheridans, Hams, Gahans, Kennys, Murrays, Tormys, Ballestys, Garaghans, Dowlings, Moores, Dillons, Murphys, Norrises, Caseys, etc., began the new industry of sheepfarming. The second generation of these men has followed in the same footsteps, and the Irishmen, or the Hibernoo-Argentines, of to day reap the fruits of the industry of their fathers. There is not, perhaps, on the face of the earth a more prosperous community, or one more meritorious.

May the Irishmen of Buenos Ayres long continue to hold the position which they at present occupy.

THE SITUATION.

After the painful suspense of so many days when the market swayed from Scylla to Charybdis, between the wreckage by "curso forzoso" or the wholesale ruin of fresh paper issues, between financial disruption and political dissolution, it is satisfactory to record a radical change for the better in all quarters. Affairs in general showed yesterday unerring signs of improvement, and the city, which last week was in the meshes of a panicky thralldom, revealed in a funeral calm, deserted streets, and daily and nightly alarm, has at last regained its old, busy and familiar appearance. The market looked rejuvenated, now that the last bugbear—disorderly elections—has vanished. Strange to say, very many people apprehended serious disturbances at Sunday's elections: they had survived the financial dangers of the week by appealing to a Patriotic Loan, but they failed to see to what powers they could appeal to avert the dreaded political ebullition over the election of two Senators: happily for all, the elections passed off quietly, and the week has opened under most favourable auspices, with a firmer tone in the stock market, a falling gold premium, and a more general feeling of confidence in the future. "Esto perpetua."

After the dangers from which the market emerged unscathed last week, the course we are now pursuing appears relatively smooth and encouraging: we have escaped the rocks, but the financial ship is still in the midst of a terrible gale and the haven is as distant as ever, for London "Moratoria" and Patriotic Loans may prevent us from sinking immediately, but will not put us on the right course. These reflections are suggested by the buoyant and hopeful feeling that seized the market yesterday in a fit of revulsion after the trials of last week. In the hearty congratulations tendered to the gentlemen who formed the Committee of the Loan, in the mutal admiration at the glowing success of that patriotic effort, people are apt to forget that the crisis is as stern a reality as ever, though the Provincial Bank has been saved from a summary execution at the hands of its depositors. Meantime, the thanks of the country are due to the men who came forward in the emergency and who by means of a loan and admirable perseverance to carry out same have saved all from the ruinous results of fresh paper issues and other financial absurdities. Their names are known to all; they deserve the gratitude of the public.

The Loan Committee have scraped together forty million dollars. This respectable amount has a great moral influence, and the effects of same could be seen yesterday in the hall of the Provincial Bank where the run for deposits had diminished to insignificant proportions; at noon we counted seventy people in the hall; at 2 p.m. there might have been one hundred, no unusual number in the first day of a week. The halls of the Italian and English Banks in the Calle Piedad and Reconquista were more crowded than the Provincial Bank, and it appears that much paper money that had been stowed away in old stockings, mattresses, etc., in the weeks of growing distrust, is now finding its way back to the vaults of the banks: there could be no better proof of a sudden revival of confidence than the extraordinary number of new accounts daily opened in the private banks.

In chronicling the different phases of the situation, it is necessary to remark that politics are playing a very important part in the improvement that became so remarkable yesterday. At an early hour it was known that ex-President Mitre had arrived the night previous in the Spanish steamer Alfonso XIII at Montevideo. It cannot be disguised that very great importance is attached to his arrival, as it is expected that he will unravel the present melancholy situation, consolidate politics and redress finances. There are many who are convinced that all the monetary woes of the country spring from political causes: the believers in this financial doctrine are the majority, and as they are satisfied that the returning ex-president will assume the reins of power ere long, they see in that very fact the much-desired panacea to remove all the irregularities that have caused and are still causing the terrible depreciation in the currency. Furthermore, it is known that the two great political parties who recognise as chiefs the two ex-presidents, Mitre and Roca, will make a great, patriotic effort to avoid any electoral disturbances, and arrive at some kind of compromise, satisfactory to them as partisans and to the country at large. We can offer no opinion on such matters, but merely chronicle facts and reports that are supposed to be very intimately connected with the improvement in the situation. We may state that when General Mitre left on June 1st last year gold stood at 130 o|o premium; it stands to-day at 234 o|o.

You could feel the pulse of the market yesterday throbbing with fresh vitality as the buoyancy of feeling put gold down ten points, and infused new blood into stocks. When gold fell to 334, say 234 per cent premium, the whole market looked radiant with satisfaction, and a smile flitted over the countenances of unfortunate stockholders as their shares in epileptic fits sought to rise above the low prices of last week. Importers looked forward to a revival of business and dealers seemed more inclined to buy. The very exporters, who are the only people who are apparently benefitted by the depreciation of the currency, greeted the improvement as a signal for fresh activity. The situation, in fact, yesterday was a great revival, a powerful struggle of the market to shake off the night-mare of last week. But how long will this last? If we pin our hopes to nothing more effectual than a Patriotic Loan, the revival cannot last long; it must fizzle like generous champagne.

THE CRUISE OF THE ARGENTINA.

CHAPTER VII.

We entered Port Santa Cruz once more, the 15th Dec., and anchored opposite the beacon which was erected during our last visit; a number of trees from Tierra del Fuego were sent ashore. Two officers, four middies and a number of sailors were disembarked, with tents and provisions, and we came to our old settlement, and we soon had a visit from the Sub-Prefect's assistant, Sr. Villagran, Comisario Burnett, and assistant, Juan Raso; they had a lot of news about the Governor. The steam launch had done good service; he had arrived at the Lago Argentino long ago, and is exploring the lake, searching for an outlet into the Pacific Ocean. Mr. Charpui had been sent back, and nearly perished on the way. A soldier, who was sent with him, got his revolver on the pretext of killing a guanaco; in possession of the revolver he abandoned Mr. Charpui, and his horse having given in he travelled 75 miles on foot, and almost without food; he had to eat the leg of a half putrid swan which he found on the way: the soldier having reported that he was in the camp some of the settlers kindly set out in search of him and found him in a very poor state. On the 17th December, Captain Rivadavia a Lieut. and I left at 5 a.m. in a boat for the beacon and on our arrival there we found everybody busy, the officers taking observations, and the middies out measuring for position. The beacon had been strengthened with three trees, and enlarged with boards, and upper half painted red and lower white, as top is against a white back ground. According to previous arrangement Mr. McLean had brought 4 of his horses and two had been sent from the subprefactura. In the afternoon work was resumed with redoubled energy, a cart was made out of the wheels and frame of a small field gun, and horses hitched to, and tools and an old mast were dragged up hill to a spot about a league away and men were set to work to dig a hole for the mast which was to serve as another beacon; they had a tough job, for after a top layer of earth, the under soil was a mixture of pebbles and fine shell and hard as concrete; they were kept digging away until 9 p.m. and passed the night on the spot, and next morning at 4 a.m. we could see them like penguins on the barranca, hard at work, and by midday the mast was in its place tied down with wire rope stays and twelve feet boards nailed across it and painted black to show against the sky. Both beacons are substantially built and will probably last for many years to guide vessels through the channel to a safe anchorage. Our camp was alive bright, and early too; all the work was finished early. Our Captain having promised McLean in return for mast and wire to tow up to his place the remaining spars etc. of an old schooner which had been wrecked on the beach, we made a large raft all ready to be floated, in the evening tents were folded up and taken to the boats, so we dined in the open camp with plenty of wind and sand to sharpen our teeth. As it was useless trying to do anything to the raft until the tide rose, we had to wait until about ten o'clock, and it was a difficult job towing it up river. We rode along the shore a little, and the Captain seeing the difficulty about getting it along, sent his own boat away and embarked in the launch which was towing the raft: he had promized to tow it up and would not abandon it, and after a hard struggle they arrived about 4 a.m. Being left with an Indian we rode along the beach with orders for the other boat to leave for the ship, then we wended our way up the barrancas to level ground, and after a two hours' gallop over the Pampa (the night being clear and starry we guessed the way pretty well) we arrived at McLean's and remained there until midday. McDougal was busy superintending the sheep shearing: they had mustered a fair number of hands for such a sparsely populated colony. McLean being cited to appear in a civil case, we rode along at the hour named, but found the court 'non est,' so we rode down to the beach and I came on board. On 23d four of us accompanied Sr. Segovia up river to his residence "Emel Kaeke" (place of shells) on the Rio Chico; we disembarked at high water about half a mile from the house in front of which there is a fresh water lake and a number of swans. Swans are very plentiful here, hundreds of skins are to be had on sale and dead ones are to be seen everywhere: some disease is killing them. Wild geese and ducks also abound. We were kindly welcomed by Mrs Segovia; they have a very comfortable house (the next door neighbour is miles away) and splendid garden with a variety of vegetables; they have arranged an admirable system of irrigation by forming a large tank or reservoir a little way up the gulley to intercept the water coming down from the springs, a small canal leads to the garden, so they can water the whole or part of it by simply lifting up the sluice. After breakfast, the river being almost dry, we crossed on horseback with Segovia Jun., and paid the Scotchmen from San Julian a visit, they had brought 3,500 sheep to clip them where they could easily embark the wool. We found Messrs Hope and McKay and our old acquaintance McCaskell. When Munroes come along and the rest of their flocks there will be a crop of 8 thousand sheep, and they will join with others in chartering a schooner to take it to the Falklands. We caught a few 'piches' and recrossed the river higher up, and later on we rode up the glen and over the Pampa to Rio Santa Cruz and returned down the barrancas and along the river side, and at 8 p.m., our boat having floated, we left for the ship. We sailed early next morning with four passengers Señor Segovia and Señor Marcelino, wife and child. We anchored near the beacon and had some very good practice with our 6-in. and 4-in. guns. It being Christmas Eve we had a regular fancy dress ball, which provided amusement and loud and hearty 'smiles' until midnight among the sailors; we had Indians, Gauchos, an admiral, several mashers, an auctioneer, an astronomer, and several timid young ladies. The ship was illuminated, and dancing, singing and other amusements carried on.

Perhaps the following data (official) about the settlers on Santa Cruz territory and their flocks may be interesting to many; it is for end of 1890.

THE U. S. STEEL CRUISER BALTIMORE.

Montevideo, B.O., March 16, 1891.

The U.S. steel cruiser Baltimore, the pride of the American navy, under command of Captain Winfield S. Shley, dropped anchor in the harbour on the 14th at 1.30 p.m., and immediately after fired a salute of 21 guns, with the Uruguayan National colours at the fore. The Baltimore is one of the class of unarmoured steel cruisers of 4,400 tons displacement contracted for under an act of Congress passed in 1886, and is classified at the U.S. Navy Department as twin-screw steel cruiser No. 3.

The principal dimensions are:—

Length over all, 335 feet.

Length between perpendiculars, 315 feet.

Breadth, moulded, amidships, 48 feet, 6 inches.

Mean draught of water, 19 feet 6 inches.

Displacement to main draught 4,400 tons.

The armament consists of four eight inch breech-loading rifled guns, mounted in barbette, two on the forecastle and two on the poop, each having a train on their respective sides from a line parallel with the keel to 60 deg. abaft and forward of the beam respectively. The remaining battery is composed of six six-inch breech-loading rifled guns, three in a broadside, mounted on platforms having semi-circular galleries projecting from the vessel's sides.

The propelling power of the vessel consists of two horizontal direct-acting triple expansion screw engine and boiler capable of developing 10,750 S.H.P. when making about 110 revolutions of the screws per minute, or a speed of 20 knots per hour, and carrying a complement of 315 men. It is not known if the Baltimore has been assigned to this station or not, but we hope she will at all events pay a visit to Buenos Aires, if only to salute the Argentine Republic.

RACING.

Notwithstanding the heavy state of the course, very good fields turned out on Sunday at Palermo; eleven out of twenty-five entries faced the starter in the two-year old race, whilst in the other six events 46 out of a possible 61 competed. The ground was altogether in favour of the light weights, the highest impost successful in any of the five handicaps being 52 ks, the other 4 being carried off by horses carrying bottom weights respectively. Of these, the Stud Luis Chico had a welcome turn with two, Westminster and Oberhof, and both the popular owner and his trainer, Josiah Brett, were the recipients of warm congratulations.

Considerable interest attacked to the Premio Productos for 2 yr old mestizo colts which brought out a fairly representative lot of which Riflero, own brother to Maipu and very like him in make and shape, was liked best and was made favourite. He, however, got a bad start which at any rate discounted if it did not totally extinguish his chance. The race was won in handsome fashion by Chaco; in fact, so easily was his victory achieved that it is hard to compute how much he had in hand; Voyageur, who ran second, was carrying 3 kilos overweight, and, under the circumstances, was not disgraced.

Although unsuccessful, the honours of the day may be fairly claimed by Aventurero, Remolacha and Osiris who ran second in the Premios Firmeza, Esperanza and Campeones, canceding 9, 16 and 20 ks respectively to the winners; these, taking into consideration the state of the course, were notable feats indeed.

GALLANTRY OF A YOUNG SEAMAN.

Mr. Editor,

I saw the other day in the STANDARD a statement relating to two sailors of the Talapoosa saving a seaman from drowning. The gallant rescuers for this deed received the thanks of the Naval Department of the U. States.

Noble deeds of this kind deserve praise, and it is for this reason I ask you to publish the following statement.

About a month ago two Norwegian barques, named Ran and America, were lying in the Riachuelo, close to. On board the latter barque there is a young fellow named Ottesen, aged 16, and this is his first voyage.

One afternoon, the day's work done, he was standing on the forecastle, when he saw a man of the crew of the Ran was going to bathe in the Riachuelo. The latter jumped fully dressed into the Boca. He soon disappeared in the muddy water. Meanwhile young Ottesen was the only person who saw him disappear. He did not hesitate a moment, but jumped in near the spot where he had seen the poor fellow disappear. There he dived, and grasping around him till he grasped the drowning man by the clothes, lifted him up to the surface and then got him into a boat.

THE CRISIS.

Mr. Editor,

"Whar is Celman?"

This, in angry tone, was the exclamation yesterday, on 'Change, of a well and favorably known, but rather irascible Caledonian broker, as he looked over the lists of subscriptions to the Patriotic Loan, and found that there were sixty millions *short*. "Whar is Celman!?" meaning:—I don't see Celman's name amongst the contributors, and he has more money than all of them put together!

Pax vobiscum, cried a gentleman of the Hebrew persuasion as he sauntered cursoforzosoly by the irate Scot.

Subsequently a rumour ran round the hall that the whole sixty millions had been *taken* by a syndicate composed of "Whar is Celman," Max Pax and those other eximient patriots who are *dando beneficio* by travelling second class on our impoverished railways. *Mas vale asi.* I hope it is not a Wilde rumour, and remain,

Yours financially,

John Law.

Mr. Editor,

Major Barritt instructs me to thank you for the letter which you have been so kind to insert in reference to our Food and Shelter. He feels sure that all the help you can afford will be cheerfully given in this effort to help those who most need our practical compassion.

All communications to be addressed:—

Yours respectfully,

P.S.—The first case we had was a poo man that a "vigilante" found sleeping in the street, who brought him to one of our places, where he sheltered him.

DEBTS IN GOLD.

Mr. Editor,

Allow me to point out that in the project under this heading published in the STANDARD of 15th inst. a clause has been omitted which provided that the notes should be granted "inconversion" for five years from this date.

Railway Items.

Messrs. Younger and Co. have submitted to the Engineers' Department for approval 12 complementary plans of their concession for a railway from Resistencia to Tartagal.

The cost of the work done by Messrs Lucas Gonzalez and Co. on the Central Northern Extensions in January was:—

Salta—Jujuy	32,316.157
Catamarca Station	11,055.8.6
	58,859.131.

According to the Government Inspector's report, the recent collision on the Pacific Railway at km. 110 was due to the negligence of the Company's employees. The damages were $3085 gold, which will not be considered as working expenses.

The Metropolitan Tram Co. was sold on Sunday for $515,000. Buyer Mr. Bowen.

The *Siglo* of Montevideo states that the Extension of the Central Railway to San Fructuoso is now complete, and that Government has been asked to inspect previous to opening the line for public service. The report that the daily service to Durazno was to be suspended is denied.

The works for the extention of Nico Perez branch to Cerro Largo are to be commenced very shortly.

The Government have authorised the Pacific Railway Company to increase their tariffs 50 per cent.

Por orden y cuenta de la Sociedad Colonizadora Argentina 1,000 chacras de 25 hectareas cada una, 20 quintas de 3 hectareas cada una, 150 solares del pueblo de 800 metros cuadrados cada uno. Sin Base! por lo que den sin base! Condiciones ventajosisimas para el pago. 1/5 parte al contado, el resto con tres años de plazo, pagaderos por anualidades con el 7 o/o de interes anual.

La venta se efectuara sobre los mismo terrenos

El Domingo 12 de Abril,

a las 11 de la mañana.

Remataremos a la mas alta postura y dinero de contado por orden y cuenta de la "Sociedad Colonizadora Argentina" las tierras de la Colonia arriba mencionada que se componen de mil chacras de 25 hectareas cada una veinte quintas de 3 hectareas cada una, ciento cincuenta solares en el pueblo de 800 metros cuadrados cada uno.

Las tierras que ofrecemos en venta de esta Colonia son de las mejores de la Provincia por su inmejorable posicion como por la fertilidad de las mismas.

La Colonia "Ceres" esta convenientemente dividida en pueblo con sus solares, quintas y chacras, terreno muy alto y llano y esta cubierto en su mayor parte de pastos fuertes con siguientes de bosques cuyas maderas son quebracho, ñandubay, algarrobo, etc. etc. La capa de tierra vejetal es de noventa centimetros de espesor, encontrandose agua potable excelente a tres metros de profundidad, Su excelente situacion es de enorme ventaja pecuniaria para los agricultores pues queda sobre el gran Ferro Carril de Buenos Aires al Rosario, prolongacion de Sunchales a Tucuman, y tiene su Estacion propia del mismo nombre (Ceres) en el centro de la colonia la cual solo dista nueve horas del gran puerto del Rosario, lo que facilita y abarata el transporte y flete de sus productos.

Llamamos preferentemente la atencion sobre esta venta de los agricultores e inmigrantes que deseosos de labrarse un porvenir seguro y de resultados efectivos buscan en que colocar sus pequeños capitales para que ayuden los por su trabajo personal les de una gananncia suficiente para de sostener los suyos y al mismo tiempo una pequeña actualidad para ahorro, base y cimiento a una fortuna que se va agrandando y consolidando con los años; pues es sabido que en nuestro pais las principales fortunas tienen por origen la granderia y agricultura.

Tenemos que hacerle presente que la colonia "Ceres" cuenta ya con un nucleo de mas de quinientos pobladores que es un aliciente mas para los nuevos agricultores al mismo tiempo de ser una gran ventaja, pues no carecen de este modo de los artículos de primera necesidad ni estan espuestos a las penurias de un campo fronterizo a poblar.

Por ultimo, y sobre este punto llamamos la especial atencion de las personas que deseen adquirir tierras de la mencionada colonia y las cuales carecen de capital suficientes para ello pues con una insignificancia pueden hacerse propietarios de las mejores tierras de la Provincia de Santa Fe, llamada con sobrada razon "la Region del Trigo" en vista de las condiciones excepcionales y grandes facilidades para el pago.

La venta se efectuara sin base alguna en lotes a gusto de los compradores, los cuales al firmar el boleto pagaran la tercera parte del importe total de sus compras al contado, abonando el resto en plazo de tres años por anualidades con el 7 o/o de interes anual firmando pagare. Los que paguen al contado gozaran de una rebaja de 9 o/o. Creemos que rara vez se les presenta oportunidad igual para la adquisicion de tierras de tal magnitud, lo cual no deben perder de vista.

. . . I consider that no estancia which has any stock worth giving medicines to ought to be without these medicines.

The Gaseous Fluid is the very best colic medicine I have ever seen given to horses, and the Red Drench for any illness after fosling or calving or lambing is, I consider, splendid.

Muy Señores Mios,

Tengo el gusto de comunicar a Vds. que las 4 maquinas de Esquilar sistema Wolseley me han dado un resultado satisfactorio y no queria darles este informe hasta no haber concluido con la esquila de borregas. La maquina trabaja bien, esquilamos con facilidad cualquiera oveja por mas fina y arrugada que sea: saca mas lana que la tijera y tiene la ventaja de no cortar, pero si en algunos casos rasguña descuidandose el esquilador. Estas lastimaduras sanan facilmente, y se ha en cada vez menos cuanto mas practica se adquiere. No he notado que se me hayan muerto animales por esta causa.

Convencido de su eficacia pienso colocar doce aparatos para la proxima esquila y creo poder hacer facilmente el trabajo con ellos Puedo asegurar a Vds. que los esquiladores mas torpes aprenden facilmente, prefiriendolas a la tijera.

Pueden Vds. darle la publicidad que gusten.

Self-Registering Recording Clock.
This clock serves to test employees in warehouses, hospitals, parks, prisons, etc., and in general for watching over every kind of undertaking, such as railways, factories, workshops, etc., also for villages, towns and cities and for police and custom house service. Not only is it an exact timekeeper but at the same time shows clearly at a glance the special watching service on which it is used. It shows on a slip of paper the hour and minute at which it is used, how much time has been employed on the journey from one point to another, and in what direction the rounds have been made. As this clock cannot get out of order, it is an infallible inspector which cannot be influenced by anybody or anything, and also contributes to avoid conflagrations and other losses, and to prevent robberies, frauds and crimes,
